

## CERTIFICATE OF INFORMATION SECURITY & NDAA COMPLIANCE

### Management system certification

Vesta is pleased to inform you that the NVR/DVR products and IP Cameras we offer to the market under the commercial name VESTA ADVANCED comply with the following Information Security Management System standard:

**GB/T 22080-2025/ISO/IEC 27001:2022 Cybersecurity technology - Information security management systems – Requirements**

The certificate is valid to the following product(s)/service:

**Information security managements activities related to video surveillance software development: Applicability Statement ZN-IM-002-V1.0**

NVR/DVR products and IP Cameras we offer to the market are NDAA Section 889 compliant and do not have relationships with the named vendors in the NDAA Section 889. The following Vesta products, which do not use or deploy critical components including SoCs produced by NDAA banned component vendors, are compliant with the NDAA

As part of the National Defense Authorization Act, Section 889 (NDAA 889), United States government agencies are prohibited from procuring covered telecommunications and video surveillance equipment from select manufacturers.

For your convenience, we have included below a list of existing Vesta video systems products that are NDAA 889 compliant equipped with NOVATEK DSP and SoC Chipsets (Taiwan).

If you have any questions about the products listed on the following pages or need more information on our data security efforts, please contact your local Vesta sales representative.
